Managing Alerts

Practice Name

- RENOVA TEST- Franklin

Patient Name

Amy Test, DOB: 01-01-1945

Notes:

1. This is a timed activity
2. Need to create a monthly Alert log

Patient Alert

Practice Name

- RENOVA TEST- Franklin

Patient Name

Amy Test, DOB: 01-01-1945

Check here to indicate Alert has been addressed. Goes on Alert History log

Patient Name	DOB	Clinic	Provider	Care Manager	Device	Range	Reading (based on device)	Time Stamp	Protocol	Addressed
									Click	<input type="checkbox"/>

Can click on patient name to go to more detailed patient view (Page 4)

Care Manager Note:

Can also create "fly out" screen if this works better?

Can click here for appropriate protocol to be followed for this clinic

Needs to be captured and presented in Call Wrap Up Screen, Care Manager Notes, and on monthly alert log

Active Alerts

Practice Name

- RENOVA TEST- Franklin

Can be sorted by:

- Organization
- Practice
- Provider
- Care Manager

New Screen – Rcare Active Alerts

Question: How to display information from multiple devices???

Data sorted by most recent
at the top of the list

[illegible]

Can click on patient name to go to more detailed patient view (Page 4)

Complete list of Active alerts defined by category selected

Once box is checked, patient comes off of Active list

Needs to be captured and presented in Call Wrap Up Screen, Care Manager Notes, and on monthly alert log

Care Manager Note:

Can click here for appropriate protocol to be followed for this clinic

The screenshot shows the 'RPM' tab selected in the top navigation bar. Below the bar, a list of devices is displayed. One device is highlighted with a red circle and labeled 'RPM; Blood Pressure Cuff'. Another device is highlighted with a red circle and labeled 'Device ID:'.

New Screen – Patient Alert History

Complete history of Alerts for a individual patient

Can click here for details on how the Alert was handled

The diagram consists of two text boxes. The top box contains the text 'Complete history of Alerts for a individual patient'. The bottom box contains the text 'Can click here for details on how the Alert was handled'. A red line connects the two boxes, starting from the right side of the top box and extending downwards to the left side of the bottom box. A red bracket is positioned to the right of the top box, and another red bracket is positioned to the right of the bottom box, indicating a relationship or flow between the two concepts.
